Marking Time At the Capital

Conservatives Have a Fighting Chance in London Against Hon. Mr. Hyman.

Case of Agnes Donahue—Minor Alterations of the Tariff.

Disgraceful Course of Government in Thessalon Post Office Case.

OTTAWA, May 20.—For the past two or three days the government has been marking time with its autonomy bills. The land and educational clauses are the only two remaining to be passed. As to the former, the opposition still insist that the lands should be handed over to the provinces, public opinion in the West being with the opposition. The only ground which the government advances for retaining them under federal control, is that immigration and settlement must go together, and that it would lead to conflict of jurisdiction if the lands were in charge of the provinces while the Dominion government was made directly responsible for the settlement of immigrants by reason of the British North America Act. The Northwest Conservative members are willing for the Dominion government to retain fifty million acres in its possession, the balance of seventy-five million acres going to the provinces. It is also contended that advances of interest upon lands valued at \$150 an acre is altogether unreasonable as the best lands today are selling at the way from \$7 to \$10 an acre. For some occult reason the government is also staying its hand on the educational clauses. Evidently there is something bewildering in view of the new

Approaching Bye-elections
in North Oxford and London.

The Conservatives have a good fighting chance in London, notwithstanding the kudos which will attach to Charles Hyman in the contest of being a full-fledged cabinet minister.

A couple of weeks ago I mentioned that Hyman wanted to run for North Oxford and the government had seriously in contemplation to send him there. This would have meant the absolute abandonment of London to the Conservatives and an admission of weakness on the part of the present administration. This, coupled with the fact that North Oxford men are clamoring for a local man, made it imperative for Hyman to contest his old seat. Mr. D. L. Borden is in London today consulting with Conservatives regarding organization, and one of the keenest political fights in the history of Canada may be expected. Should Hyman be defeated, he will not be the first cabinet minister to go down on presenting himself to his constituents for re-election on his appointment to the cabinet. When Laurier was made minister of inland revenue in 1877 and went back to his constituents in Antigonish, he was beaten by a by-stander. A safe seat in Quebec East was then found for him, which he has ever since retained.

The unfortunate case of the officers and crew of

The Agnes Donahue
has been before Parliament twice this week, and notwithstanding the indisposition of the government to make a country battle of the British navy, Canada is perforce compelled to appeal to the British authorities for protection for her own people, because she cannot do so herself. The Toronto News points out that the Donahue is occupying a rather inconsistent position in this respect. Possibly the fate of the crew of the Donahue may make the government realize their responsibilities as an integral part of the British Empire. It is likely that Mr. Borden's strenuous advocacy of the rights of the Canadians now in duress at Montevideo may be effective.

It is not improbable that Hon. Mr. Fielding will announce the fiscal policy of the government for the coming year within the next ten days. It is not often that the budget speech is deferred until the House is in session. Mr. Fielding may announce regarding the iron and steel schedules, the bounty clauses, and the preferential system, especially in its application to the woolen industry. The Commons last session went on record in favor of

Limiting the Preference
to goods entered only at Canadian ports and brought by British vessels. This resolution was moved by Logan, one of the government whips, and it was generally believed he was inspired by the ministry to present it as Hon. Mr. Fielding declared himself in accord with the principle. Should Hon. Mr. Fielding decide to give effect to the resolution this session, it will have a better influence on trade carried in Canadian bottoms from British ports. It is not believed that there will be many sweeping tariff changes this year as the government is committed to exhaustive enquiry before thorough revision of the tariff takes place.

The case of the Thessalon post office was discussed in the House Thursday when striking evidence was presented of the deterioration of the public service going on under the Laurier government. Postmaster Tooker received from his assistant, who was a relative of his, something like a thousand dollars in postal monies, and used it in outside business ventures. To cover up the transaction, false returns were made, and registered letters ostensibly containing money forwarded, although the inspector in his report

port declares these were never sent. The postmaster made restitution, was permitted to resign, and then having demonstrated his political usefulness in the Dominion and Ontario elections in the Grit interests.

He Was Reinstated.
Sir William Mulock tried to shield the postmaster on account of his political affiliations and absolutely declined to bring the papers down, but yesterday relented, realizing that he is in a bad box. He undertook to see that all the correspondence was put in the hands of Parliament.

MUST PAY DAMAGES.

Caracas, Venezuela, May 20.—The president of the federal court of cassation, sitting as a tribunal of first instance today, in the case of the government of Venezuela against the New York and Central Ashphalt Co., re the Hamilton contract, dissolved the contract and held the company to pay damages.

ADOPT TURBINE ENGINES.

British Admiralty Invites Tenders for New Motive Power.

Glasgow, May 20.—The British admiralty has invited engineering firms here to make tenders for the construction of turbine machinery intended for one of the new battleships to be built in the government dockyards. The specifications demand that the engines develop 23,000 horse-power.

WHALE FISHERY PROTECTION.

Newfoundland Government Charters Vessel as Cruiser.

St. John's, Nfld., May 20.—The colonial government has chartered the whaler Neptune and commissioned her as a temporary cruiser to enforce the provisions of the Foreign Fishing Vessels Act against American fishermen. There were fifteen whalers cruising around the coast, and it is expected that the inability of the Americans to distinguish which is the Neptune will render them more liable to capture.

RACING INNOVATION.

New York State Associations Break Away From Old Custom.

New York, May 20.—One of the most important steps since racing in New York state has been conducted under the present law, has just been taken. Every racing association in the state has announced the absolute severance of all business relations, directly or indirectly, with the Metropolitan Jockey Association, and all other organizations of individual bookmaking. Hereafter, while there may be layers of odds and a betting ring as of old, it will be absolutely without restriction and free of connection to any person pursuing a ticket known to the track as a person personally reputable and officially liable for the amount of their wagers. This innovation will begin today at Belmont park, \$5,000 received yesterday for the Metrop. Jockey Club tickets bought according to prevailing customs, having been returned to them.

ROBBING TAXPAYERS.

Scheme Uncovered by Which "Frisco People Were Victimized."

San Francisco, May 20.—The Chronicle today says: A scheme which has been in operation in the tax collector's office for many months has just been uncovered, by which nearly a million and a half dollars' worth of property has been secured for little more than \$100,000. The victims are the city taxpayers who are charged, in some instances at least, with paying with delinquencies. The profits have gone to a ring of tax scalpers, who were assisted in every possible way by the alleged defaulting tax collector, Smith, and his subordinates office. Records have been manipulated to keep the truth from coming out, and many poor people have had the title to their homes placed in jeopardy without so much as knowing that a shortage is charged against them.

A thorough investigation will be made at once into the matter to develop, if possible, the extent to which these irregularities have been carried on.

YACHTS ARE SIGHTED.

Endymion and Another Craft Seen in Atlantic by British Tramp Steamer

Boston, Mass., May 20.—The British tramp steamer Kennet, which arrived today from Cienfuegos, Cuba, reports sighting two of the yachts now engaged in the trans-Atlantic race for the cup offered by Emperor William.

Captain Torney, of the Kennet, said that at 8:10 p. m. on Saturday 30 degrees 45 minutes north, longitude 40 degrees 48 minutes west, he sighted a black-painted schooner-yacht speeding along with balloon jib and spinnaker set.

She flew the pennant of the Indian Harbor Yacht Club, and as she approached closer she signalled the letters "K P Q L," which showed her to be the Endymion.

Captain Torney said the distance and the bearings of the yacht from the Kennet were 23 degrees west, true 57 miles.

At 9:10 Thursday night, in latitude 48:48 north, longitude 69:49 west, a white-painted schooner-yacht was sighted. She showed green, red and blue lights, and signalled the letters "K P Q L," which showed her to be the Endymion. Her bearings from the Endymion were 18 miles west, true 31 miles.

A TEMPORARY SHUT-DOWN.

Boston Consolidated Properties to Be Examined by an Expert.

Greenwood, May 20.—Telegraphic instructions from New York ordering Manager Pemberton of the Montreal and Boston Consolidated to close down all operations caused consternation in mining circles today. Later it was learned that the closure was made at the Brookfield and Rawhide mines at Phoenix was to permit expert examination by engineers who left New York today, and the feeling is more hopeful. The cessation of operations throws out temporarily over 250 employees at the mills and the Boundary falls smelter.

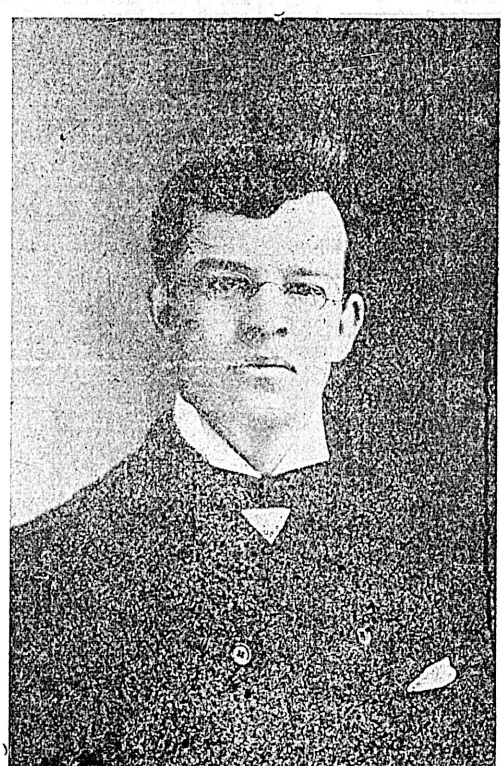

Nelson, B. C., May 20.—The Daily News received the following official statement from Mr. Pemberton, manager of the Montreal and Boston Copper Co., this evening, regarding the rumored closing down of the smelter and mills.

"During the week the company has been thoroughly reorganized and taken over by a few financial interests. A wire received here from them instructed that the mines and smelter be closed temporarily, pending the arrival of two mining experts, who are now on the way to thoroughly inspect all the company's mines and property."

He denied absolutely that the pumps were being or are going to be taken out of the mines, and said "the mines would be kept clear of water so that the examination could proceed at once when the experts arrived. The new controlling company is entirely different from the old and will spare no expense to put the whole concern in good shape."

GOES NORTH AS GOVERNOR

Appointment of W. W. B. McInnes as Yukon Commissioner Formally Passed at Federal Cabinet Council.

Ottawa, May 20.—(Special.)—Frederick Congdon left for the Coast today, having abandoned all hope of securing the appointment as commissioner of the Yukon. It is likely the government will find something else for him. The question of filling the vacant office was discussed in the cabinet today, and it was decided that W. W. B. McInnes should get the plum. The formal order appointing him will at once be sent to the Governor-General at Toronto for his signature.

Mr. McInnes has been at Ottawa for the past two weeks in connection with the appointment announced above, which, as stated in the Colonist just one month ago, was practically decided upon at that date, although, for political reasons, the formal announcement has been withheld. Mr. McInnes is a son of the late Hon. Thomas R. McInnes, who, during a long residence in this province, himself took a foremost part in public life, successively serving in the parliament, the senate and the executive mansion. His son, the coming governor of the Yukon, entered public life as member of the House of Commons for Nanaimo city (where he was practicing law) ten years or more ago, being, so far as known, the youngest member ever seated in the Canadian parliament; and quickly winning a place for himself among the older heads by his energy and effective style in debate—"the boy orator from British Columbia" he was duly, if informally, christened in very short order. His career at Ottawa was not of an extended character, the "boy orator" asserting the failure of the government of Sir Wilfrid Laurier to redeem its promises in the matter of Chinese immigration restriction, and resigning in protest. Entering provincial politics as member for Nanaimo, he was for a time provincial secretary in the Dunsmuir government, and at the division of the local legislature on party lines, he was by many regarded as the natural choice of the party for the leadership—a position which many impartial critics believe he is infinitely better fitted to fill than the member for Rossland, the compromise selection of British Columbia's Liberals in the local House, who now is their accepted chieftain.

The new governor of the Yukon is perhaps the youngest appointee to so high office under the British flag, being not yet thirty-five years of age. The Yukon commissionership is a particularly attractive office, the salary being \$12,000 per annum, exclusive of the executive mansion, or official residence, and an adequate appropriation for its maintenance.

KILLED BY LIGHTNING.

Berlin, May 20.—Eight persons were killed by lightning and ten were injured in various places in Silesia during a storm on Thursday and Friday.

SWITCHMEN'S UNION.

Indianapolis, Ind., May 20.—The convention of the Switchmen's Union of North America today, in committee of the whole, heard representatives of various committees. The insurance question for the switchmen was settled as far as this convention is concerned, when the new class of insurance, a \$300 policy, was added to the two classes already given by the order. There will be no increase of rates at this time.

ROW ENDS IN FATALITY.

W. H. Steele Dead at Coleman From Wound Received in Fracas.

Nelson, B. C., May 20.—A special to the Daily News from Frank today states that W. H. Steele, proprietor of the Coleman House, Coleman, died this afternoon in the hospital at Frank. Steele's hand scratched some time since by G. L. Clark, hotel porter. The two had an altercation and Steele was badly hurt at the time. Clark has been arrested and taken to Macleod, where he will have to stand his trial for manslaughter or murder.

MUSIC IN CHURCH.

Reformed Presbyterian Body Decides That Instruments May Be Used.

New York, May 20.—After an agitation lasting for several years, the general synod of the Reformed Presbyterian church today decided that instrumental music may be used in the services of churches of the denomination. This body of Presbyterians, who are generally known as "Covenanters," is the least numerous branch of the church in this country, but it is noted for its strict adherence to antique ideas. The new moderator, Rev. Samuel Ramsay, of Los Angeles, Cal., presided.

RAILROAD TRAINMEN.

Assistant Grand Master to Be Appointed at Meeting Next Week.

Buffalo, May 20.—An important matter to be taken up by the convention of the Brotherhood of Railroad Trainmen next week will be the resolution appoint an assistant grand master at a salary of \$4,500 a year. If the resolution is favorably acted upon James Murdock, of Toronto, Ont., who at present is a trustee, probably will be elected vice-president. The candidates for the office of assistant grand master will be selected as vice-presidents. The convention spent today considering a kick against the insurance fund of the order.

EXPERIMENTS WITH TORPEDOES.

Madrid, May 20.—Despatches from Puerto Rico today announce that experiments made there with invention of Senor Balsa, an employee of the telegraph department, for directing torpedoes at sea by means of Hertzian waves have proved highly successful.

ATTACKED BY PIRATES.

Paris, May 20.—The Temps today published a despatch from Tangier, Morocco, announcing that a small British vessel, cruising on the Moorish coast, was attacked recently by pirates, who fired on the crew and killed the British flag with bullets. Representations, it is added, have been made to the British minister at Tangier, with a view to obtaining redress.

FEDERATION OF MUSICIANS.

Detroit, Mich., May 20.—The American Federation of Musicians today voted to hold next year's convention at Boston, Mass. The convention modified the resolution which prohibits the federation parading with army bands. Hereafter army bands will not be objected to in cases where the entire supply of wage bands have been exhausted. The convention increased the salary of the secretary from \$1,500 to \$2,000, and allowed the president \$10 a day traveling expenses up to 150 days.

CARNIVAL OF DRUNKENNESS.

Much Dissipation Amongst Hungarians at Rear of Russian Army.

St. Petersburg, May 21.—(125 a. m.)—Despatches from Harbin report a carnival of drunkenness and dissipation among the Hungarians of the rear army. Champagne at \$10 a bottle is sold, and flowing like rivers, dives are abundant, and a multitude of sharpers and gamblers are reaping a rich harvest.

The Emperor, at Gen. Linerich's request, has appointed a new proconsul marshal, and the commander-in-chief intends to wage a vigorous campaign to restore order and institute more satisfactory conditions in the rear.

THE WARSAW OUTRAGE.

Great Indignation Aroused Amongst Officials in Russia.

Warsaw, May 20.—The explosion of the bomb in Midowia street Friday, which resulted in the death of the Polish shoemaker, Drobowski, who was carrying it in his pocket, and of two detectives, and the injury of many persons, has excited general indignation in view of the attempt on the life of the governor, General Maximovich, who, it is conceded, has evinced every desire to add the Poles to secure all reasonable concessions. The police are conducting a rigorous investigation into the affair and there have been many arrests.

End of Strike At Chicago

Employers Score Complete and Decisive Victory—Their Terms Accepted.

Express Companies Will Not Re-Engage the Drivers Who Went Out.

Employers' Teaming Company Reorganized and "Open Shop" to Prevail.

CHICAGO, May 20.—Lacking only an official declaration, the teamsters' strike came to an end tonight. The executive committee of the international brotherhood of teamsters, the only body within the organization that has the power to declare it at an end, was in session all through the early part of the night, and the strike could not be called over until that body had announced that the fight had ceased. It was a day of conferences and consultations. There were proposals and counter proposals. At nightfall the situation was about the same as in the morning. The teamsters have accepted all the terms of the employers with the exception of that relating to the re-employment of the drivers for the seven express companies.

These men were informed when they went out on a sympathetic strike that they were violating their contracts with the company in so doing, and that none of them would ever be re-employed in any capacity by the express companies. The unions have made a desperate effort to save these men, or at least a part of them, but so far have been unsuccessful. It is possible that the legislation of teamsters will declare tonight that it is in favor of continuing the strike against the express companies.

To protect themselves against such a contingency, the members of the employers' association today insisted that if the strike is called in all places except the express companies, the drivers of the other business houses shall not refuse to deliver goods to the express companies. The unions have agreed to this, and the express drivers will be compelled to make their own fight if the strike is called off in all other places.

The Terms Announced

by the employers are as follows: The teamsters shall recognize the Employers' Teaming Co. as a permanent institution employing non-union drivers, and the "open shop" to prevail.

All the strikers who are reinstated wherever vacancies exist, except that the employers will not consider the applications of men who have been guilty of lawless conduct during the strike.

The settlement of the strike with other concerns is not to include the express companies.

Union drivers must deliver goods to express companies irrespective of strike conditions.

Working conditions are to be the same as before the strike, as these, in fact, were never an issue in the strike.

Prosecutions already started in the federal court, under the injunction, and in the criminal court, under indictments, are to be continued.

These terms today were

Accepted by the Leaders

of the teamsters' union, and the leaders promised to submit the terms to the joint council of the teamsters tonight. It is understood in advance, however, that this body will ratify the agreement. Their ratification will be submitted to the local unions tomorrow. These, it also is said, will accept the terms made, thus ending the strike.

On the shoulders of the managers of the express companies resident in New York city rests the possible settlement of the teamsters' strike in Chicago. After a night spent in conference, the members of the employers' association and the executive committee of the International Brotherhood of Teamsters reached an agreement upon all points except the reinstating of the drivers of express companies. When these men of out they were warned by the Chicago managers of the express companies if they went on strike that none of them would ever again be employed by the express companies. Last night, after extended conferences between the two sides of the strike, the following terms were announced by the employers' association, and, with the exception of that relating to the express drivers, was accepted by the teamsters:

"That the teamsters should recognize the integrity and permanency of the employers' teaming company, which is to employ non-union men and remain pledged to the policy of the open shop.

"That the drivers for the express companies abide by the declaration of the company, and the forfeiture of their positions when they struck.

"That all desirable non-union men should be retained and no discrimination shall be practiced against the union men in filling in the vacancies caused by men who have been guilty of lawlessness during the strike shall not be employed.

Teamsters Protest.

These terms were conveyed to the members of the teamsters' executive committee at an early hour this morning. A vigorous protest was made against the attitude of the express companies and the teamsters proposed that 20 per cent. of the express drivers should be taken back, the managers of the companies to pick the men.

ATTACKS DUNRAVEN.

Dublin, May 20.—Chief Secretary for Ireland Long gave a banquet to the Irish Unionist members of the House of Commons tonight. He denounced the devolution proposals of Lord Dunraven, who, he said, was going down the road which was traversed by others who had surrendered their forces in disorder.

BEEF TRUST INVESTIGATION.

Chicago Grand Jury Adjourns After Three Months' Session.

Chicago, May 20.—The federal grand jury, which has been investigating the beef industry, has adjourned after having been in session exactly three months. It will reconvene on June 7 to vote any indictments which in the meantime may be prepared by the United States district attorney.

Jesse P. Lyman, formerly president of the National Packing Co.; Hector Stockman, former confidential stenographer for Armour & Co., and Gustave Prouder, formerly head of the Aetna Trading Co., were placed under bonds to secure their attendance as witnesses at the July term of court.

Melrose Nursery Rhyme.
THE SPIDER AND THE FLY.
No. 10.
"Won't you come into my parlor?" said the Spider to the Fly.
"I have the neatest little parlor that ever you did spy on."
"I can't," she blushing replied,
As she sat and feasted on an apple core,
"You've been to the Melrose Co.," she sighed,
"And bought a strong Screen Door."
"I think you big folks do forget
Such little things as these,
They go and buy a strong wire net
To keep out flies and bees.
And then they quietly ask us in;
Such mockery I despise,
I think it really is a sin
To tease us little flies."

The Spider wept and spun a rope,
And hung it from the ceiling.
Melrose Screen Doors left no hope
To stay his hungry feeling.
Around his neck he put the loop,
And bitterly he cried:
"Flies come no more into this coop."
He hanged himself and died.

All of which goes to show that insects or flies cannot exist in your house if you are provided with Melrose Screen Doors.

German Crown Prince's Wedding
Entertainments to Last Four Days Commencing on June Third.

Marshal Perplexed Over the Question of Princely Precedence.
Berlin, May 20.—The entertainments in celebration of the wedding of the Crown Prince Frederick William and the Duchess Cecilia of Mecklenburg-Schwerin will last four days, beginning Saturday, June 3, the day the bride and her family arrive here from Schwerin and take up their residence in the Bellevue palace. The duchess will be received at the Brandenburg gate by the chief burgomaster and the city fathers and by one hundred young women, who will present flowers to the future empress. The girls will be dressed in gretchen costumes with their hair in braids down their back. Behind the crown prince and his bride will ride of right the burgesses, postmen and deputations from other grades and occupations, according to the custom. Those chosen to form the cavalcade are now in training at riding schools.

Preparations in Berlin.
The Emperor has commanded that the entrance into the city, which will be the only public celebration, shall be simple, and, if possible, beautiful. The three-quarters of a mile of Unter Den Linden, from the Brandenburg gate to the palace, where the Emperor and Empress will await the Duchess Cecilia, will be hung with garlands of roses. Artificial ones will be the only sort used, as they will have to stand four days' exposure. Eighty thousand garlands have been ordered. Seats and windows along Unter Den Linden have been selling for from \$5.50 for the former to \$12.50 for the latter. Except for the numerous court equipages and uniforms which will be seen in the streets, and the princess going and coming from the (Evesey) hotel, there will not be anything for the public to see as the festivities will be private and members of royal families, ambassadors and a few other important persons and government officials will take part in them.

The chapel of the palace, where the wedding will take place, only holds about three hundred persons, but there will be a service at the cathedral on Sunday and a dinner at which the Hohenzollern and Mecklenburg-Schwerin families and the visiting princess, of whom there are fifty or sixty, are to be present.

Princely Attendants.
There are so many princes coming, each of whom must be treated ceremoniously, that the imperial court marshal's office is perplexed over questions of princely precedence. The ambassadors probably will only be invited to one or two functions, so as to avoid placing them below members of small German houses.

The wedding gifts will be presented in the palace on Monday morning, June 5, when deputations with congratulations will be received. Later there will be a numerous attended breakfast, and the state dinner will be served at 7:30 in the afternoon, so as to be ended in time to permit of the punctual appearance of all the guests at a gala performance at the opera the same evening. The civil ceremony of the wedding, Tuesday, June 6, will be performed by House Minister Von Wedel, and the religious rite will be celebrated by Dr. Dryander, the court chaplain, in the palace chapel. The procedure to be observed in the wedding of the crown prince lists 113 pages of the "Book of Ceremonies of the House of Hohenzollern."

Japan Reported to Be Carrying Things With a High Hand.
Paris, May 20.—Reports are coming here through authoritative channels representing Japan as carrying things with a high hand in Korea. The reports cite specific facts supporting the view that Mr. Hayashi, the Japanese minister to Korea, no longer observes the position of the other ministers at Seoul. He is said to consider himself in a sort of real general or viceroy, thus taking precedence over his diplomatic colleagues, who are obliged to await his convenience in dealing with the court and government. The general commanding the Japanese troops is reported as according this assumption of precedence on the part of the Japanese minister.

The Week At The City Hall
Carnegie Library Building Formally Taken Over by the Corporation.
Interesting Legal Point Raised—School Board and City Council.

A notable event in matters municipal during the week just closed was the formal taking over by the corporation of the new Carnegie library building from the contractor, George Snider. At Monday evening's meeting of the council a detailed report of the cost of construction was submitted by the building inspector, W. W. Northcott, who took occasion to say in his opinion that the city had obtained a very excellently constructed building at a very moderate cost. At Monday evening's meeting also the board of commissioners will administer the affairs of the new library building, which is now open to the public. The new library building, which is now open to the public, is a fine example of modern architecture and is well equipped with books and periodicals. The board of commissioners will also consider the report of the school board on the maintenance of the institution. In the course of five or six years this will provide a fine equipped library. It is estimated that the \$2,500 appropriated for the building during the remaining half of this year, there will be a surplus over and above that required for running expenses of \$1,100 for new books. It will take \$150 for the library's salary for months, \$240 for his assistant, \$300 for the caretaker's wages, about \$50 per month if cordwood is burned, and the balance of the \$1,400 will go towards lighting and incidental expenses.

End of Strike At Chicago

(Continued From Page One.)
The express companies absolutely refused to accept the modified proposal, declaring that they would not recede from their position. The city council, on their drivers who struck without a grievance of their own should ever be re-employed. The teamsters' executive committee, after receiving and deliberating over the city council's offer, at 2 o'clock in the morning declared that the strike would not be called off unless something was done for the express drivers. The managers of the express companies said that they would do nothing beyond referring the matter to the general managers of their respective companies.

More Trouble Feared.
The council of teamsters met at 8 o'clock to hear the report of the negotiations that had been in progress with the express companies. The city council agreed to all the stipulations of the express companies with the exception of that which declared that the drivers of the express companies should not be taken back. This was the rock upon which the peace process was wrecked, and after several hours of debate, it was decided that the Teamsters' Union could not leave the express drivers to make a lone fight, but that they must stand by them. It was decided to call off the negotiations and prepare for a further fight.

HOCH HAS COLLAPSED.
Chicago, May 20.—Johann Hoch has collapsed. The convicted wife poisoner, who all through his trial seemed to regard the charge against him as a joke and his possible outcome a matter of no consequence, today realized that he was in a predicament. He spent the greater part of the day in his cell, weeping, and at times his sobs are audible throughout the greater part of the jail. His landlady, who brought scant sympathy from his fellow-prisoners, who jeered at him and constantly urged him to "brace up and die like a man."

OBITUARY.
This afternoon at 2 o'clock, from St. Mark's church, the funeral of the little daughter of C. A. Goodwin will take place. Rev. E. G. Miller will conduct the services.

The death occurred last night at the family residence on Johnson street, of David Smith, a native of Yorkshire, 59 years ago. A widow and family of three sons and four daughters survive him.

Another sewerage problem which the council has just been called upon to consider is what to do to arrange proper sanitary conditions along the Arm. The sanitary inspector has in a report pointed out to the aldermen that sewage of an objectionable character is now flowing into the Arm from the residences along both sides of that waterway, to the danger of contaminating the water and rendering the place objectionable to visitors and tourists, to say nothing of the menace to health which is implied by such objectionable conditions existing. The council finds itself hampered by a lack of funds, but as soon as occasion will permit an effort to remedy the grievance will be made, probably by arranging a sewerage system to accommodate the residences along the western side of the Arm, and by putting in septic tank systems on the other side.

THE RACE QUESTION.

We publish elsewhere a letter dealing with an article which was copied into the Colonist from the Toronto News, and our correspondent properly assumes that it is not the desire of this paper to encourage a spirit of race hatred, either for political or other purposes. It is needless to explain that a newspaper does not necessarily endorse the views that are expressed in articles taken from other newspapers any more than it can be held responsible for the opinions expressed by correspondents. In most cases they are reproduced as a matter of interest, or to show the attitude being taken upon certain questions of the day. In this case the News endeavored not to prove that the majority of positions in the Yukon were held by French-Canadians, but that the superior positions were so held, a fact which is not disputed. However, to what extent the position of the News that the influence of Quebec Province is dominant is sustained by such evidence must remain a matter of opinion among readers. Any attitude of hostility to Sir Wilfrid Laurier or the Dominion Government based simply on race prejudice is to be deplored. If, however, the predominance of Quebec influence is a factor in our politics, it is a fact equally to be deplored, and it is not in the best interests of the country that the issue should be shirked. The consequences of ventilating an abuse of racial or religious ascendancy in state affairs, however serious, are not greater than the abuse itself. There is always a possibility of a system becoming settled upon us through what, in law, is known as user, and it is very hard to shake off when once it is established itself. What at first is only permitted for purposes of expediency becomes a vested right, a law by custom.

Unfortunately, for Canada, the race, and to some extent the religious, question has become acute again throughout the country owing to the educational clauses of the Autonomy Bill. We have discovered that the Manitoba school question of 1896 was not dead, as supposed, but simply sleeping—lulled to repose by the gentle and soothing persuasiveness of Sir Wilfrid. The awakening has been unpleasant. Such sentiments as have been expressed by the Toronto News are excrement, a side wind, inevitable in a controversy which calls into play the passionate impulses of sectarian, sectional or racial prejudices. We know that the bitter feeling that has been aroused is the consequence of the legislation referred to, and we believe, most people believe, that the educational clauses, which were unnecessary for the protection of minority rights, were introduced indirectly, if not directly, as the result of influence brought to bear upon the leader of the Government by the hierarchy. That is a belief which in Canada amounts to almost positive knowledge. Politicians do not take great risks except under extreme pressure, and Sir Wilfrid knew that he was embarking upon a dangerous enterprise when he slipped the mooring to which he made fast in 1896. It is only natural, therefore, that the intervention of one clerical influence should arouse another. The existence of a grievance begets an agitation. Every impelling force is opposed by a repelling one. The interference of any body of clergy, or the exercise of undue sectarian influence, Orange or Catholic, in matters of state tends to mischief, because, even if not an influence to a wrong end, is provocative of discord and leads to results which we see exemplified today in Canada. The "race cry" and the sectarian bitterness come because of it, and until such influences are checked this country can never be united in the true sense of the term.

The British Columbia Electric Lightway announces a 30 per cent. discount in electric light rates. This is for the purpose of encouraging the more general use of this modern illuminant in the city, and is pleasant news to consumers. It is not only encouraging in the double sense of that term, but it tends to dispel the fear that, having obtained possession of the gas works, the city would suffer as a consequence of monopoly in light. The company is to be congratulated upon making the move it has. Such a substantial reduction coming voluntarily places the management in a much more favorable light than if it had been the result of competition or other compelling circumstances.

CHEAP SCHOOL BOOKS.

Sir—I and, I suppose, a number of other parents would like to know if some cheap arrangements cannot be found by our education authorities in connection with the school book supply, together with other sundries, than having to go to a retail establishment for these articles. It is not that I object to the dealer handling these goods so much as the fallacy of doing the business on these lines.

I should say that all books and supplies ought to be kept in stock by the authorities and distributed at about prime cost to the scholars, and thus make this item of expenditure more bearable to parents. In Manitoba, where I recently came from, they have simplified matters in this respect. Why not here? The dealers' stocks of standard school books could be taken over so as to avoid the loss to these people. Planking you in anticipation of making public these few remarks, and hoping to see speedy improvement in this line.

FATHER OF A FAMILY.

Victoria, May 19, 1905.

ROSS BAY CEMETERY.

Sir—My attention has lately been called to what may develop into a serious matter in the near future, unless some action to remedy the existing conditions be taken. I refer to the unsanitary condition of Ross Bay cemetery. As is pretty well known, there is quite a quantity of water found nearly all the year in this place of burial, and invariably when a grave is dug, the water seeps from the adjoining grave flows in. The stench from this liquid mass of putrefaction can be readily imagined. In order to avoid this, the burial, this is buried out and thrown on the surface of the earth—there to do its deadly work, where it should be buried in the earth.

Isolation, should that ever become necessary. A great deal has been said on the constitutional aspect of the question, so much so that the public mind has become bewildered. What is constitutional or unconstitutional in such matters leaves a wide margin for dispute. In fact, nothing is more perplexing to the lay mind than a constitutional argument, unless it be a chapter from the metaphysics of a university professor. There is at the bottom of every "abstruse" question, however much overlaid with legal sophistry, a simple proposition determining its merits. It is the dictum of common sense. In reference to the school question, as at present before the people, we have held that, stripped of all its technical habiliments, it was not competent for the Dominion to interfere with the Provinces. They are entitled to go into Confederation with all their educational rights unimpaired. These rights are only qualified by the provisions of the British North America Act itself, which the Dominion Parliament can neither add to nor take away from. This, we feel certain, is the view the judicial committee of the Privy Council will take when it comes before them. The simple solution of the difficulty is in permitting the Provinces to deal with the question themselves, and in case of difficulties afterwards, reference to the courts. The responsibility for the "bad blood" which has been caused, therefore, must rest where it belongs. If you set a fire among inflammable materials you must not be surprised to see a conflagration ensue.

MINISTER OF MINES' REPORT.

This is a publication looked forward to each year with great interest. It is the only official record of the progress of the mining industry in the Province and, consequently, the most authentic source of information. The report for 1904 has just been issued, and we have pleasure in presenting some of the more important facts gleaned from its pages in this issue. There are just two criticisms that might be offered regarding it. One is that the public, whether justifiably or not, expect it a little earlier in the year. In these days of rush and daily newspapers, that is not unnatural; but if a little late it is at least worth waiting for. From every point of view, in our opinion, it is the best report which has yet appeared, and, considering the amount of matter it contains and the great care necessary to exercise, we cannot conclude that criticism in regard to the lateness of appearance would be well founded. The other criticism refers to the omission of a description of the lead refining works at Trail. This is a new and important industry, and we expected to see a more lengthy and detailed description of it. In fact, a special chapter on the smelting industry of the Province is suggested as a feature of the next report. If the present one is lacking in that one particular, it is more than made up in other features. One is a complete account of the Portland cement works at Saanich, an industry of scarcely less moment than the lead refinery. The preliminary chapter of the report, containing a condensed review of the year's operations and a general survey of mining in the Province, is very "meaty" and, if reproduced in bulletin form, would be most useful for a wider distribution than might be possible for the whole report. As usual, a feature of the publication is the great excellence of the mechanical work, and especially that displayed in the illustrations—a credit to all concerned.

U. is putting forth an earnest effort to enlarge the work sufficient to meet the demands on it, and to this end has arranged to hold a mass meeting of Christian and temperance workers on May 31 in the Edison theatre, Yates street, when a very full report of this splendid work will be given, so that every citizen may know what is going on so far as mission work in this city is concerned. At the annual general meeting, just held, officers for the ensuing year were elected as follows: President, Mrs. McNaughton; vice-president, Mrs. Gleason; corresponding secretary, Mrs. A. Andrews; recording secretary, Mrs. A. B. McNeill.

Madame Bayla, France's most celebrated Psychic Palmist, will arrive in the city tomorrow, Monday. It is the intention of this celebrated artist to remain in the city for two weeks.

LOCAL NEWS.

Good Templars Entertain—Members of Triumphant Lodge, No. 16, I. O. G. T., will tomorrow evening entertain brothers from H. M. S. Egeria, which arrived at Esquimalt from her survey work yesterday morning. All members are particularly requested to be present at the meeting called for the purpose of arranging details of the affair.

Tacoma Couple Weds—Yesterday morning, at the Metropolitan parlourage, Rev. G. K. H. Adams united in holy matrimony Harry Unger and Grace Mercer, both of Tacoma. The groom is a contractor and has lived in Tacoma for 15 years. The newly-wedded pair left by the steamer Whatcom for their home on the Sound, where they have a host of friends and well-wishers.

Examinations in Dental Surgery—Six candidates presented for examination yesterday before the board of dental examiners for the license to practice dental surgery in this province. The board of examiners for British Columbia consists of the following members: President, Dr. Lewis Hall, of Victoria; secretary-treasurer, Dr. R. Ford Verinder; other members, Dr. Wm. Mason of Nanaimo; Dr. K. C. McDonald, of Grand Forks; and Dr. G. A. McGuire, of Vancouver. The examinations will be completed during next week.

For the Holidays—For the Victoria Day holiday, the Esquimalt & Nanaimo Railway are putting in effect specially reduced rates to the several resorts along the line, the rates being the same as those in effect on Sundays, and the tickets will be good for Wednesday, the 24th inst., only. As in former years there will no doubt be a number of private picnic parties and fishermen take advantage of the holiday to spend the day in the country, and the double train service in effect will afford the desired opportunity.

At Bellingham.

At Bellingham yesterday, New Westminster defeated Bellingham by a score of 6 to 5.

Everett Again Wins.

Vancouver, May 20.—(Special)—Everett again defeated Vancouver at ball today, 10 to 5.

Centrals Defeat South Park.

After a very one-sided game the Centrals won the second game for the Colonist cup by defeating the South Park by the score of 21 to 5. The game was started at 10:15 by Umpire Howlett. In this game, as in the one last Saturday, some of the teams were late in arriving on the field. In order to have the games started sharp on time, the committee should give the umpire power to call play at the time the game was advertised for. A very bad accident happened in the fourth inning, when Johnson tried to catch Edwards at second. B. Matthews, who was playing second, tried to get it and missed, the ball striking him in the mouth and knocking three teeth out. Matthews allowed them to be put back in place without a whopper and left to have them fixed by a dentist. The South Park team were very clear of all classes, and appeared very much in need of practice. Edwards, the South Park pitcher, played a fairly good game, but was not given the support. On the other hand, Smith, the Central pitcher, had them all guessing, and only allowed three hits. The South Park went first to bat and on one man reached first, being hit by the pitcher. They were also shut out in the second; in the third they managed with three men given bases on balls and a hit, to make three runs; and one in the fourth and another in the sixth.

The Centrals in their first time to bat started right off to make runs. Clarke all guessing, and only allowed three hits. The second saw four more added on and the same in the third. In the third Spencer lead off with a home run and they also got two more in the same inning. In the fifth they went in and scored in the sixth by a neat double play the South Park again stopped them from scoring. The following is the score:

Junior Independents Win.
The Junior Independents defeated the St. Louis team yesterday after a very hard game by the score of 6-5. The game was played on the grounds of the former, and for the winners Sherbourne and West were particularly in evidence, as were Keefe and McDonald for the losers.

Another game in which a member of the league acted as umpire was played at Beacon Hill. The contesting teams were the Y. M. C. A. and the Beacon Hills, and Bob James, first baseman of the Bellingham team, acted as umpire. He had more fun at the youngsters' expense than he will have in the next six weeks. The Y. M. C. A. team proved too strong and won out by the score of 20-12. For the losers Bamford and Scott were the stars; while McGinnis and Spencer did yeoman service for the winners.

S. O. S. Defeated.
The S. O. S. met their defeat at the field behind the fire hall, Yates street, on Friday morning by the Hornets, the score being 36-12.

Notes.
Jimmy Holness got the local team out of a bad hole yesterday.
The Philbrick arm gets in order he will have them all guessing.
Galaski did not make a hit as an umpire. He does not call loud enough.
"The best ball in Victoria," was the verdict of yesterday's game.
Poor old Mac is heard broken over missing the fly in right. Better luck next time, Mac.
Papa Hutch is there with the goods when they need a hit.
It is up to Downing to get another box of cigars. The offer is still open.

"Britonsloom" is a serge made exclusively for Semi-ready by England's greatest serge maker

The best serge maker in England makes several qualities of serge. His name on a piece of serge means mighty good quality, but it doesn't necessarily mean his best. Our cloth experts explained to the manufacturer what we wanted in a serge. "That is better than anything I am turning out," he said, "but I can do it."
"Britonsloom" serge is the result. We control the output, so you can get this extra quality serge only in Semi-ready suits. "Britonsloom" serge is absolutely fast in color, black or blue—and it is a wonder for wear. We make this serge into single and double-breasted sack suits of the latest style. Price \$20.

coat of arms, which will be handed to the victor of the association. It is desired that the cup should be a perpetual challenge cup, and it is desired to be arranged, for the senior single sculls.

AUTOMOBILING.

Breaks the Record.

New York, May 20.—At an automobile meet at the Morris track today, Louis Chevrolet lowered the world's record for a mile, flying start, by covering the distance in 53.2 seconds. The previous record of 53.2 seconds was held by Barney Oldfield.

ATHLETICS.

Yale Defeats Harvard.

Newhaven, Conn., May 20.—Yale defeated Harvard in the annual dual games at Yale field this afternoon by a final score of 65 1/2 to 35 5/8. The victory for the blue was far easier than had been anticipated. The conditions were the worst on account of the wind for a great many years.

YACHTING.

International Races.

The international races this year will be held at Vancouver on Saturday, July 1, and the club races on July 3. This has been arranged so that yachts wishing to take part in the races at Bellingham may do so. It is quite likely that the Victoria and Vancouver clubs will be well represented at Bellingham. The owners of local yachts are requested to take notice.

THE TURF.

The Derby.

Not for many years past has the English Derby presented as open an appearance as now, and the betting, which is a sure indication of public opinion as to the result, shows no pronounced favorite whose chances can be regarded as overwhelming. The victory of Vedas in the two thousand guineas, has naturally brought to him a large amount of public support, but even this has not resulted in his becoming a good favorite as either Cicero or the latter Val D'Or has displaced his companion, Jarvis, in the betting, and there is little now to choose between Val D'Or and Cicero, though the victory of the latter in the Newmarket stakes, in which Langbly and Signorino ran second and third, will undoubtedly, for the present, keep him a favorite in the quotations. It is very probable, however, that as the day of the race grows near, the weight of money will make the choice of Signorino the more popular. Both Langbly and Signorino have been running very consistently this spring, and it would not be at all surprising if one or both of them beat the more fancied candidates for the place, even if neither is quite good enough to win, and the race will be a backer, one, two three. The following are the latest quotations given in the local Savoy book:

	Cicero, 3 to 1; Val D'Or, 3 to 1; Jarvis, 9 to 2; Vedas, 5 to 1; Rouge, 12 to 1; Langbly, 25 to 1; Signorino, 33 to 1; Liao, 33 to 1; St. Oswald, 40 to 1; others, 50 to 1.
--	---

Just One Week.

As there will be no tickets sold for Salmon's grand Derby sweep after May 29, there remains but one week more in which to procure them. Mr. Salmon is making a very nice exhibition of hitting the mark in his selection of the winners of previous sweeps conducted by him. It is the fact that in nearly every instance the principal prizes have gone to whom the same proved a veritable windfall.

ROD AND REEL.

The Vancouver Island Fish and Game Club has forwarded letters to the British Columbia representatives in the House of Commons at Ottawa asking to have the limit on the number of salmon under three pounds in weight may be taken with rod and line. Under the present fishing act salmon under three pounds in weight cannot be killed in any manner.

CYCLING.

Schilling Wins.

London, May 20.—In the international cycling races at the Crystal Palace today (F. L. Kramer (America) won the mile (scratch) event, defeating Schilling of Holland, Mayer of Germany, and the French rider, P. L. 2:12 3/4. Later it was announced that Kramer had been disqualified for booring and that Schilling had been awarded the race.

THE WHEEL.

Jimmy Moran Defeated.
Birmingham, Ala., May 20.—Bobby Walthour defeated Jimmy Moran of Chelsea, Mass., in a motor paced race here last night, winning two heats of five miles each. The second heat was made in 6:45. The chains of Walthour's machine jumped at the start just as he crossed the line a winner. He was not injured.

Miscellaneous.

The club house at Oak Bay which is under the care of Prof. R. Foster has undergone a big change within the last few days. The paperhangers have been at work, and have made "Old Bob" a very nice place. The rooms are for the use of all amateurs who are participating in sports at Oak Bay. Prof. Foster as usual has applied his decorative ability and has transformed the reading room into a most attractive gallery. The room is decorated with pictures of all the amateur clubs, as well as some of the best known athletes of the city. The rooms are always open and "Old Bob" will be very pleased to see any of his friends who may wish to call on him. The rooms are very neat and bear evidence to the ability of "Poor Old Bob" as a decorator.

Football Concert.
The management of the Vancouver Island Football Association are sparing no effort to have a concert at the Victoria Theatre. The concert will be held in the Y. M. C. A. rooms Tuesday evening, commencing at 8 o'clock. Besides the concert there will be the presentation of the cup and medals won by the Garrison during the season. The club will also give for the Vancouver Island championship, as well as the medals for the B. C. championship, and also those won by the Victoria West and Cloverdale in the basket ball series will be present. The cup, which is now on exhibition in the Victoria Theatre, is a very handsome trophy and one well worth winning. Among those who will contribute to the programme are Mrs. Theberg, Miss Breidford, the Garrison Mandolin Club, Messrs. J. G. Brown, Simpson, and Shaw, Turner, York, Allan and Richardson.

NEW POLICY PROVING ITSELF.
Savoy's Clean and Clever Show Attracts Growing Patronage.

With one week's trial, the new policy of the Savoy under the management of R. J. McDonald may be voted a complete and successful one. The policy for the new policy are cleanliness and quality, and the crowds who have applauded the various feature acts of the past week in a programme of amusement, have been so numerous that it is difficult to find a single person who has not found with the bill it was in the mildest case at the grandstand.

features and new faces. Musically the special attraction for the holiday period is the team known as the Musical Stars, who play the piano, violin and harp, and the mechanical doll, supplies an eccentric novelty in entertainment; Hartney and Holmes provide a matchless ragtime melody, ballads and up-to-date dances; Mickey Feeley, who is billed as America's greatest acrobatic marvel, has an individual feature number that stands high and unchallenged in its class and the Singlow Brothers present a series of new, graceful and athletically wonderful feats on the Roman rings.

The performers' roster is headed by Beatrice Lorne, operatic soprano; while the illustrated songs will be "The Man in the Overalls" and "I'm Trying So Hard To Forget You," the singer being Alice Williams, and the second number especially, with the violin obligato, being given with much feeling and effect. Grace Williams figures upon the programme as a singing and dancing comedienne, and the whole of no duplications or repetitions remains in full force and effect.

The Grand.
For the celebration week the Grand will present a very strong bill. It will include R. P. Murphy and Blanch Allen in an act of new features, a feature titled "The Irish Roses," and Forest and D'Aliza in French novelty. Forest and D'Aliza are direct from the Folies Bergeres, Paris, and have brought with them the delightfully chic mannequins from the French entertainers. This act is a difficult one to describe. It has a touch of the good old Drury Lane pantomime, a smattering of Anna Held in the pointed ballads, an originality that is refreshing in the matter of costume, and a dash and humor in all that makes it a thoroughly delightful act.

The three wonderful Anderson children will present their new comedy sketch entitled "Fresh Paint." These children are very clever and come well recommended. Besides these there will be new moving picture features, the illustrated song for the week by Fred Roberts will be "Lay My Wedding Dress Away."

At the Redmond.
Now that the goats have closed their reign of triumph at the Redmond, and the wonderful barrel-jumper and his clever clown have folded their tents and gone, the cosy little Fort street playhouse is ready for the holiday week with a bill that is worthy of the momentous occasion. With half a dozen features, any one of which is entitled by Langbly and Signorino to a place of honor on the bill, it is somewhat embarrassing to classify without injudicious discrimination. Kosure & Chaplin are among the engaged people of celebrity. They have an eccentric comedy sketch entitled "A Discouraged Butler," which is spoken by the puppets elsewhere as a lively playlet, full of mirthful situations and clever lines and business. The Melroy Trio are comedians, vocalists and dancers, and present a phenomenal and clever sketch which goes the better since all participating are themselves still in their teens and full of the enthusiasm and infectious gaiety of youth. Cole & Cole are a team of finished acrobats, whose work is of the highest order, and who are ascribed as very neat and graceful, besides athletically wonderful. Stansfield requires no special introduction wherever the public follows the record of vaudeville successes. He is at the head of a new school of character impersonations, his clever make-up, artistic impersonations and imitations of the mannerisms of eminent men of the day being noted throughout Western America and even to the distant East. There is an abundance of high class comedy in the bill, and the comedy duo, Charles H. Steele, the English baritone, will present as the picture song of the week the melodious ballad "The Diver," and the series of moving pictures will be a long and well diversified one, both entertaining and amusing. Continuous performances will be given from 2 to 5 and from 7 until 10 during each of the holidays, and the patrons of the house are assured of a continuation of the clean and high-quality entertainment of the house among family holidays of vaudeville. During the just closed week the business men of Fort street have joined with the Redmond management in making that business thoroughfare for Government to the home of family vaudeville, and the high quality of the Broadway in its brilliancy "Follow the Lights to the Redmond" is now the watchword of the management, and there will be many hundreds during the week opening tomorrow who will gleefully accept the invitation.

WHOOPIING COUGH.
This is a very dangerous disease unless properly treated. It is more deaths from it than from scarlet fever. All danger may be avoided, however, by giving Chamberlain's Cough Remedy. It liquefies the tough mucus, making it easier to expectorate, keeps the cough from becoming the precursor of coughing less frequent and less severe. It has been used in many epidemics of this disease with perfect success. For sale by all druggists.

Mr. Charles S. Lang and Master Fred Lang are spending a few days at the Strathcona hotel, Shawanigan lake. Mr. Wilfrid V. Goddard, of the Imperial Bank staff, is spending his vacation on the Sound.

R. McMillan, formerly a member of the mechanical staff of the Colonist, and now located in Seattle, came over from the Sound yesterday on a visit to his parents. He will remain for the Victoria day celebration.

Hon. Justice Duff, Dr. I. W. and Mr. R. N. Powell, Godfrey Booth, Rev. J. P. Hicks, D. R. Ker and Thos. Hooper returned home by the Princess Victoria last evening.

Mr. G. Sheldon-Williams, editor of the B. C. Mining Exchange, came over from Vancouver last night, and is registered at the Dominion.

D. R. Ker, of the Brackman-Ker Milling Co., returned last evening from an intended business trip to the Northwest Territories and Kootenay points.

Social and Personal.

On Tuesday afternoon last a very pleasing affair occurred at the residence of Herbert Kent, Yates street, when a party of friends called to pay their respects to the late Mrs. Charles Kent, on the occasion of the 50th anniversary of their wedding day. The function was rendered pleasingly notable by the circumstance that the fellow employees of Mrs. Kent in the city hall seized the occasion to present Mr. and Mrs. Kent with a beautiful illuminated address, accompanied by appropriate gifts. A reception was held during the hours being received by the bride and groom, fifty years ago under a chime of golden wedding bells. Mrs. Herbert Kent was gowned in pearl grey silk. The table decorations were among the most elaborate seen for some time. A yellow tulip runner, tied in bows, framed long graceful glasses, holding bride roses and lilies of the valley. The mantel piece was banked in green and yellow, with the dates "1855" and "1905" in white. Mrs. E. B. Blackwell, of the city, assisted by Miss Winifred Wilson, Miss Katie Redfern, Miss Edith Wilkerson and Miss Marjorie Kent. Early in the afternoon Mrs. Kent was presented with a handsome bouquet of sweet peas and ferns, tied with yellow "true-love" knots. It was the gift of Mr. and Mrs. G. E. Wilkerson.

A late English paper contains the following particulars of the Clephane-Wyld wedding, already briefly referred to in these columns and in which Victoria's best and personal interest: "A very pretty and fashionable wedding took place at Holy Saviour's church, Victoria, on the 18th inst. THEY KNOW IT.
Thousands of people throughout the country know that the ordinary remedy for piles—ointments, suppositories and applications—will not cure. The best of them only bring passing relief.

Dr. Leonhardt's Hem-Roid is a tablet taken internally that removes the cause of Piles, hence the cure is permanent. Every package sold carries a guarantee with it. It is perfectly harmless to the most delicate constitution. A month's treatment in each package. Sold at \$1.00. At any drug store, or The Wilson-Fyle Co., Limited, Niagara Falls, Ont.

Got the Better Of Bellingham

Victoria Wins at Baseball in One of the Best Games This Season.

Better Attendance and Good Weather at Second Match of Series.

The Victorias won in a brilliant game yesterday, when they defeated the fast Bellingham bunch. The game was undoubtedly the best played here yet, being snappy and full of ginger. Umpire Treadway did not show up at the grounds, so two of the extra players took another turn at the umpire's job, and although things did not go along as smoothly as the day before there was no particular reason to complain. Their decisions were on the whole impartial; the crowd in the stand showed their disapproval several times, but it must be remembered that the umpires are in a better position to judge than the spectators.

Philbrick started to pitch for the locals and up to the fourth inning did very well, but then he lost all control and could not get them over. He pitched fifteen straight balls without getting over the plate, filling the bases and having three balls on the batter. Manager Howlett could stand it no longer, and called in the faithful "Jimmie," who held the lads in blue well in hand.

For Bellingham Drew pitched fine ball, allowing only four hits, but there were three of them three-baggers and they came in when there were men on the bases.

Old Hutch came in for the batting honors of the day, getting two three-baggers, a sacrifice and a base on balls, his percentage for the day being perfect. Ford at second played star ball, as did his younger brother behind the bat. Spencer, catcher for the visitors, also performed splendidly, having to his credit an unassisted double play.

The game was called sharp at three in a shower. Kelsey went out at first, Drennan got a pass, but was nipped at second trying to steal; Dudley hit to Howlett and was put out at first. Daley went out to centre, Ford got first on an error, Hutcherson sacrificed him along and he scored on McManus' three base hit. Howlett went out to right on a fly. Bellingham failed to register a count in the next inning, James getting on the bags, but being left there. Victoria went out in order. The visitors did likewise in their half of the third.

The locals scored two more in this inning. Philbrick fanned, Daley was hit by the pitcher, E. Ford singled, and good old Hutch lined it out for three sacks, scoring Daley and Ford. McManus hit one to the right fielder and went to the bench. Howlett went out at first, Hutch dying at third. In the fourth inning, things commenced to look decidedly shaky for the local nine. Philbrick had done well so far, but broke down on control and the way he issued passes was a caution; he let Drennan, Dudley and Mahon walk, and had given James three bad ones and no strikes when Manager Howlett decided to call a halt. Holness was called in to take Philbrick's place, and the smiling James walked out and faced a decidedly tough situation. The bases full, no strike and three balls and no strikes on the batter—and worse, he had had no time to warm up. But he was there equal to the task. He handed the batter another ball, forcing one run, Jansa struck out, Howlett to Howlett to C. Ford in time to head off Dudley, who was forced. Spencer fanned, ending the inning, and pulling the boys out of a rather bad hole. Victoria went out in order. The visitors could do no better in their half of the fifth and the home team did the same.

In the sixth there were things doing when two two-base hits in succession netted the Bellingham boys one run. Victoria also added one; Hutcherson and Daley got clean around to third when Spencer threw to Downie who came in to cover, first trying to catch Hutcherson off the bag; the bag went by Downie and past the right fielder and the old man was at third, scoring a run. Hutcherson and Daley were left on the base. Williams went out to first.

Bellingham tied the score in this half of the following inning; Downie got a safe one and scored on Spencer's safe drive. Drew fanned, Kelsey hit one to McManus, who dropped and Spencer scampered in with the run that tied the score. Drennan got four bad ones, Dudley flew out to centre and Drennan was nipped trying to get to second.

Matters were becoming intensely interesting at this stage. Downie got first on an error, W. Ford hit up a high foul near the first base line, which Spencer grabbed and then went on to first before Downie could return, completing a splendid double.

The eighth Bellingham opened badly the first two men going out on pop fouls to Ford. Jansa hit safe, but Dudley was retired at first.

And then came the fans' first real good opportunity to root and cheer and how they did it when old "Hutch" scored Ford. The latter got a base on a fly, Hutcherson came up with his big club, took strikes and three balls were called on him and then he got one to his liking and drove it to the right field fence. This put the locals in the lead, again. Things seemed decidedly bright. McManus hit to James and How-

Was Cured of Asthma.

STRIKE AT THE LENORA.

What is Classed Best Ore Yet Uncovered Reported From Mt. Sicker.

A strike which seems to be of very considerable value is reported to have been made at the Lenora mine, Mount Sicker, on Friday last, by Mr. John B. Sicker, who is in charge of the work. The surface showing is extraordinarily good; indeed the ore is reported better than is found at the end of the 900-foot shaft, and it is believed that the body of there too, and that the find will prove of value.

The men are now in about six feet, and find everything confirmatory of their hopeful conclusions.

What can be done in the new strike does not appear quite clear, in view of the trouble into which litigation has brought the affairs of the mine and those in control of its destinies.

left struck out. The visitors had one more chance and came near making it. Spencer went out at first, Drew hit safe, Kelsey fanned, Drennan got a pass but Dudley could not get it safe, hitting a long fly to right, which McManus grabbed and the suspense was over. The game was a good one and was thoroughly enjoyed by the largest crowd since the opening day.

The teams play today at Bellingham. On Tuesday the strong Everett bunch open for a series of four games.

A REMARKABLE SONG FESTIVAL

Arion Club With Sister Organizations to Participate in Musical Festival.

The third concert of the Arion Club's thirteenth season is to be held tomorrow evening at the Institute hall, when the popular club will have the assistance of Miss Miles, pianist; Dr. Nash, violinist; and Miss Clara Lewys, contralto, of Seattle. A glance at the programme printed hereunder will show that the selection of music is well calculated both to please and to educate:

Part I.

- On the Sea Dudley Buck
- Proposal Oscar
- Last Night Kjerulf (Tenor solo: M. C. Reynard)
- Sword of Ferrara Ballard
- La Ciega (from La Gioconda) Ponchielli
- At the Altar of Truth Mohr

Part II.

- Song of the Drum Dudley Buck
- Sonata for violin and piano, Opus 13 Rubenstein (a) moderate con moto (b) finale
- Good Night Kucken
- Nocturne Protheroe
- (a) Sandamanchian Brahms (b) Fairy Love Song Wilbye
- Bugle Song (by request) Dudley Buck

On Tuesday evening the Arion Club will for Tacoma, where a three-day festival is to be held. On Thursday, the 25th inst., there is to be a grand concert in the Tacoma theatre, in which six notable musical clubs will be represented—the Arion Club of this city; the Orpheus (male voice) Club of Tacoma; the Sangerbund (another male voice club composed entirely of Germans); the St. Cecilia Club (female voices); the Tacoma Ladies' Musical Club; and the Philharmonic Club.

In addition there will be an especially fine orchestra.

The concert Thursday evening will consist of numbers by the several clubs, the Arion Club and the Orpheus Club singing together the "Swiss Song" and the "Bugle Song"; and the three male voice clubs will together sing the "Soldiers' Chorus" (Faust) accompanied by the full orchestra.

On the Friday afternoon there is to be an orchestral concert at which the Arion Club is to supply the vocal numbers. In the evening all the club's will unite in singing the "Creation." For this work the managers of the cycle have engaged a soprano of eminence from New York city.

This festival is unique, being the first attempt at uniting the musical clubs of the various cities of the Pacific Northwest. It is also purely amateur and is being managed by ladies and gentlemen of Tacoma solely for the love of music. In order to encourage and assist materially the success of the festival, a special rate from Victoria to Tacoma and return of \$3 is being arranged, in consideration of which very moderate charge it is expected that quite a number from this city will seize the opportunity to attend the notable musical gathering.

REDUCTION IN RATES

FOR

ELECTRIC LIGHT

As an inducement for every householder in the city to use electric light the rates will be reduced from 17 cents to 12 cents per K. W. hour commencing with the July accounts

AT THIS PRICE

ELECTRIC LIGHT IS CHEAPER THAN COAL OIL

All we ask is that you give it a trial. We know you will be satisfied. It is the safest, cleanest, handiest, healthiest and best of all lights for domestic use

WE WILL HELP YOU TO WIRE

Your House if it is Not Fitted up for Electric Light

This offer we have decided to continue until JUNE 30th, notwithstanding our reduction in the price of light. Our offer applies to those living in rented houses only, so that if you are a tenant you will be able to have the work done at very small cost, and to have the use of

THE GREATEST OF ALL CONVENIENCES IN THE HOME

Provided you are not in a position to spend money on wiring the house you occupy, interview your landlord and impress upon him the fact that our company will refund him half the cost of installing the necessary fittings and that now electric light is so cheap and within the reach of every family you cannot possibly do without it.

TO PROPERTY OWNERS

We would point out the increased value of houses fitted with electric wiring together with their improved renting possibilities. We confidently expect that the above large reduction in rates for domestic lighting will cause every family in the city to demand electric light in place of coal oil, which means that landlords will require to do this work if they wish to retain their tenants.

Take Advantage of Our Offer

and receive a refund of 50% of the cost of wiring your house before the 30th of June Next

Which is the last day on which it will be given.

Communications intended for "Grandma's Room" should be addressed in care of the office of publication.

Delineations.

"Elm"—Loves order, but does not spend very much time over her work. Likes daintiness, arrangement, and neatness. Comes to quick conclusions, and is a little bohemian in tastes. Likes mental improvement, and has bright mind and strong will-power. Is generous, very warm in affection, and also idealistic and true. Health rather doubtful, none too robust. Talent and imagination (which is large) should aid to success. Marries twice.

"Nappa"—Is very self-reliant, fond of plenty and comfort. Does not mind how things are set out so long as there is abundance and carelessness. Health robust; fairly broad-minded, and an honest, successful business ability. In love, sensual, but fond of children. Marries once. Easily influenced, and fond of company. The person to whom this subject is married will die suddenly.

"H. E. G."—In life finds negative happiness, and is not very deep in his affections, yet finds a happy marriage, and is fond of children, or at least very kind to them. Has talent, which is loved only for what can be made out of it. Is a utilitarian, fond of keeping all work well classified, under perfect system. Is broad-minded, with strong mental power, will power and executive ability. Also power of imagination, independence of action, great ambition and love of a man of ideas, and wins a fair share of success. Is a progressive, law-abiding citizen, and a thorough business man, with sufficient versatility to render him also a very pleasant social man.

"Rev. John"—Likes to rule and lead others. Is fond of a "good table" and also of horses. Is very adaptable to people and circumstances, and has a will-power which is almost unbreakable. Is somewhat narrow-minded, yet has great imagination and some craftiness. Likes his work systematically arranged. Subject to neuralgia or neuritic headaches. Mental ability of the best.

"Thelma"—This is an unfortunate hand. Marriage strongly opposed, and continued misfortunes seem to be her lot. Has talent, but is a bit of a failure. Is somewhat narrow-minded, yet has great imagination and some craftiness. Likes his work systematically arranged. Subject to neuralgia or neuritic headaches. Mental ability of the best.

"Sammy"—A thorough business man, blessed with good fortune and success. One who will make money and keep it; not miserly, only thrifty. Sorrows or great distress caused by loved ones. Health not good. Has a warm place in his heart for children. Misfortunes and disappointments late in life. Dies far from place of birth. Will be a widower.

"Judy"—Marriage opposed. Marries happily, still finds negative happiness in life. Is generous and warm-hearted, good to children, and likes order. Speaks without thinking; talks a good deal, and has quite a number of cares and worries, some caused by relatives or dear ones.

"Mater"—Married happily. Had talent for music or literature, but it has been much interfered with. Is broad-minded and affectionate, thinking much of her children and family. There was a love affair which caused some sorrow to the subject ("Mater"). Sees many changes. Health broke down in middle life, and not very good since. Serious illness late in life, but will recover. Last years of life much interfered with by relatives.

"Ano"—Has artistic temperament and a love for careful, particular work. Is thorough, and worries over little things. Meets with financial success. Is generous, and makes many friends amongst various people. Marries once, but the one love of life ended sadly, and misfortune causes through love.

"Dolores"—Is very orderly in the arrangement of all her affairs, and she is also gifted with a clear mind, which plans and arranges all details of her work before the execution. Has a quick, bright intelligence, and much tact. A number of griefs in early life, and broken and poor health, with some disappointments from middle life on. A great change came over her life some years ago, the eighteenth year; and a threatened danger, very imminent, is shown near the twenty-fifth year. A happy marriage and a long journey are also hers. She is very benevolent, but gives thoughtfully.

"Wae"—Likes careful arrangement of all material belongings; fond of a nice and stylish appearance. Will want a sweetheart with money. Talent for instrumental music or story-telling. Likes to be in command, and has a number of sufficient brightness and strength to make much of life's gifts. Marries happily, yet finds in life as a whole very medium happiness. Takes a long journey. Sees some changes in life. Is very self-reliant, independent in thought and action, and has wonderful imagination. Danger threatens through an animal, but not a fatal one.

"A Group of Seven"—These seven reached me in one parcel, and they have followed in different directions for making prints, neither is their substitution "just as good." I can read only from the outline of the fingers and shapes of hands, as the lines are too much rubbed and too indistinct for reading.

"Longfellow"—Generous and fond of company. Careful of money, but not mean. Makes friends readily, but for close friendships very carefully. Good bookkeeper; good at any business where care and arrangement are needed. Does not worry needlessly, and is ambitious. Would lend on good security, but not otherwise. Not too easily influenced.

"Rosalind" (lines show in this print)—Is a good housekeeper; does not save in many ways. Rather set in her own opinions, and not strictly honest. Is easily influenced, and acts on impulse. Marries happily. Has some talent for music, but wins no great success through it.

"Phoebe"—Is impulsive; never stops to think, but acts quickly. Spends carelessly and is generous; also quite independent. Very quick to see through things, and very fond of being leader.

Also fond of good things and an easy time.

"Otto"—Impulsive, quick to act, and easily led. Fairly generous, but not very adaptable to the opinions or ways of others.

"Sybil"—Generous, stands no imposition, original in ideas, order—likes plenty, but likes daintiness as well. Independent and brave. Not afraid to work to win her way. Fond of style, and careful.

"Victor"—Will never fail in business, unless he fails for profit; neither will he give much away, nor waste much. Is easily led and influenced, so long as you leave his pocket alone.

"Eva Marie"—Will be a great lover of style and dress and out-of-door games. Will be very active and original, and will not hesitate to do or dare to attain her object. Will prove to have a strong, brilliant mind and much generosity, with a careful regard for money, and a care as to how she forms friendships.

"Louise Starch"—Very close and "mum" about her own affairs, but blessed with much curiosity. Generous and warm-hearted, but not effusive, and very careful in the formation of friendships. Great love for speculation and chance, which would easily turn to gambling. Quick insight and bright mind. Successful talent for instrumental music or literature if tastes are cultivated. Not many cares or worries. Nervous system in good order.

"Malcolm"—Yes, you will marry—twice, if not three times. Success is written in your hand. You would succeed best in work which is of an artistic nature or requiring close attention to order and detail. Self-reliant, is ambitious, independent, has tact, executive ability and will-power to carry you through any undertaking, as well as bright mental ability. Aims, lofty and idealistic.

"Fleur de Lis"—Marries happily, and to order of temperament; this means also to marry money. Talent for instrumental music, and is successful. Is original as to ideas; particular as to the finest detail of her work, and believes in the inventive, engineering type of men.

"Teta"—Rather an independent disposition, and one who will think for herself and be somewhat difficult to manage unless governed wisely. Inherits a disposition to hold close 20 years' age a genuine illness will come, but she will recover and health will be good thereafter. She will find moderate happiness in life, and die far from the place of her birth. Has a broad-minded and evidently intellectual and bright.

"Poplar Tree"—Has love of activity, and is apt to make sudden decisions. Has much pride in her own virtues and manner of doing. Is anxious to make, and to save and to hold all the worldly goods possible. Aside from this, is generous in many ways. Very independent, and pleasant with those she likes, unless in position is tried, then she is cold and acts for herself. Has a natural talent for music. Health is not of the best after middle life. Many family cares, relatives being closely connected with all affairs of life and thought. Is painfully particular as to housekeeping, order and work. Is bright, clear mind and strong will-power. Takes some journeys.

"Josephine"—This plump little baby hand shows little as yet, only a great independence of action, which will not cause much trouble, as she will be easily controlled by parents. Has imagination and promise of bright intellect, given to love of improvement. The lines do not show up very clearly, only in spots, so I cannot tell all the little that is born in a baby's hand.

"Dixie G."—This is the hand of a fine man with a weakness. He is generous to a fault, likes company, and is broad-minded and original, and just a little independent. Nervous system not strong, and in other respects healthy, but not a great success. He is anxious to get on in the world, and with which he enters all undertakings, and in affections, which are not selfish, but sincere and strong. Is a fairly straightforward business man; should be in commercial line of work, any man to be. His ambitions will be fully gratified and realized. Success may be his if he chooses. There has been some raise in life, which occurred at an early age. You are threatened at an early age with a serious illness, or with an accident to the head—you must judge your self which, as a print will not tell. Look at your left hand; you will see that the palm is crossed by three lines, one from between the first and second fingers, the second from below the first finger, and the third from between the second line and the thumb. On this last line you will find some tiny spots; if they are black, the first danger is yours, if red, the second. You have not strength of vitality to stand much, but you have a strength of mentality to do all things that you will to do, and that is a God-given strength—far superior to the other lower sort.

"Lawyer F."—Likes system, order, and plenty of active work. Is not easily influenced. Has good executive ability and a power of planning. Is not sympathetic. While having a fairly quick perception of things, is not a particularly gifted speaker. Is ambitious and anxious to lead. Has some talent. Makes his own way in the world, practically unassisted. Few cares or worries. Early life much influenced by two people. First influence ended at about twenty-first year. Marries once. Will not live to a great age.

"Unhappy G."—Is of the artistic temperament, one who loves ease, luxury and beautiful surroundings. Is changeable, but sincere while in each mood. Is talented and should meet with success and great glory, but is somehow interfered with; and you should be happily, very happily married. But there are cares and anxieties and worries enough in your poor hand to supply a city. Are they all caused by that

unhappy love affair shown in your hand? Good fortune and good success should be yours. I almost doubt the need of your being "Unhappy G."

"Dartford"—The lines are faint and undistinct, and few can be read. Generosity and outspoken open-mindedness are shown, and a friendly, adaptable disposition. Self-reliance and straightforwardness are also indicated. But there is also a tendency towards narrow-mindedness. Life much influenced by others, and some travels or short journeys are shown, but the lines being incomplete, I cannot tell if long or short.

"Jim Jam"—Print also faintly done and lines half finished. A love for animals, chiefly horses; and also much enjoyment of "good living" and indulgence of same. Sufficient love of chance and speculation to render keen enjoyment of a good race, and sufficient carelessness in the expenditure of money to render probable the willingness to place small bets on the same. Generosity, straight dealing, broad-mindedness, imagination, and a stubborn will-power are shown, as well as tact and a superior brightness of mind.

"Nonah"—Is very particular to have things nice about her, but much prefers someone to make and keep them so, to doing it herself. Has a wealth of affection, but is not to be trusted in love, because she is such a changeable flirt. She has considerable natural business ability and a grasping hold upon money, which would make her a hard creditor. Has unusual executive ability and good self for your judgment; at others, you are sweetness itself. You stand no imposition; are affectionate; narrow-minded, but sincere and honest.

Patrons of this corner of Grandma's Room must not be impatient if readings do not appear as quick as they are seen in. At first this was possible; but now, though I crowd the other corners closely, I cannot possibly do as you all seem to desire. There lie on my table today sufficient prints to fill space for two weeks, and the first to come must be the first to appear.

"Oh, so Easy?"—"Could I make money at nursing?" you ask. Well, palmistry could scarcely answer this question—"money" is not always success—and success is not always a cash asset. However, as you are to be twice married, and happily, I fancy you will find plenty of nursing to do, and, yes, it will pay you! But you are not a "born nurse." But you are neat, kind, talented sufficiently to be bright, have got good brains and executive ability, and love to help and comfort, and love to have good health. If you like nursing, learn the art, and you should succeed, and also make a good living. I've never yet seen a wealthy nurse. They work hard and have long hours and brook rest if they have a good deal of interest, and the forced weeks of rest act upon the seemingly big wages. If you are looking for something "easy" do not undertake the care of the sick, for here you should be ready to die, and you are not. If you are patient, to a reasonable degree, as your own health permits.

"Anna O. K."—"Would I succeed as a nurse?" asks this one. In many respects you would. Your care of detail, dainty ways, executive ability, and love to help and comfort, and love to have good health, are all strong factors in your favor; but your health would never permit. You are subject to headaches and neuralgia, your vitality is weak, you tire easily and cannot stand broken rest and sleepless nights. Try something easier, until that first husband comes along, and by the time that second one which fate holds in reserve for you is in evidence, that money which your palm says is to come in later life shall also be at hand. I think you will find, too late time, after study is completed, to practice, if you are to live all that fate holds for you.

"Kidder"—While you have considerable talent, its success is very doubtful, and your success comes late. Try something easier, until that first husband comes along, and by the time that second one which fate holds in reserve for you is in evidence, that money which your palm says is to come in later life shall also be at hand. I think you will find, too late time, after study is completed, to practice, if you are to live all that fate holds for you.

"Honest Willie"—Will never waste his nickels, and, while easily influenced, will not be led to waste money. He is very independent in his actions, and reasonably self-reliant. He will marry very happily, and live a life of quiet, home love. He will be a commercial business man and win unusual success for himself.

"Mickey Spuds"—A business man with a successful musical talent. You are a deep, deep disposition, though you have few, if any, cares or worries. You have a talent for planning and securing business, and for holding to money and making a good bargain. You are shallow in affection, also selfish and sensual. You marry once. At about the age of 28 to 30 years, through the influence of others—your position in life is spoiled; or some scandal or disgrace is threatened.

"Rebecca of S. F."—"You have doubtless found your delineation in last week's paper. I do not see any particular fortune or good luck in your print. You will live a quiet, sincere, steady life of home love; not very demonstrative, but calmly happy.

"Dinah"—Has talent for instrumental music. Likes activity and out-of-door amusements, games, etc. Marries twice; negative happiness. Can make yourself a success through your talent for art. A "fatal love" mars your life.

"Apple"—Is a good-natured, generous girl, frank and outspoken. Marries very happily, and to a doctor. I have little doubt. Steady and sincere in affection; not very demonstrative, but fond of her home. Has natural literary gift and bright imagination and intellect.

"Hot Air"—Might possibly be a doctor; he has the natural aptitude therefore; or he may be a famous musician; he has talent for music, without the artistic temperament which is characteristic of the English or Italian musicians. He is a generous, good-hearted man, with good future in his hand. His high ambitions, whatever they are, will be fully realized, and money will be his. Marries happily, though he meets with opposition to the marriage. Fond of good living and plenty of companionship.

"Cherry"—You are very sincere and warm in your affections, and any undertaking of yours is entered into with great ardor and enthusiasm. And yet, with all this depth of affection in your own nature, you will still coquet with the affections of others. But perhaps not, when you think that they are sin-

cere. A series of illnesses show in your hand, but these cease at middle life, or just before, and will not occur again. Still, health is not of the best. You become restless and dissatisfied after a time, and long for travel and change. You are not very self-reliant, and you are timid. You are somewhat double in your nature—sometimes you are gentle and kind, again you are severe and hard. You are "strong-willed" to stubbornness, and you have a bright intellect and love of improvement—that is, intellectual improvement. You are very neat and orderly in all things, artistic in temperament, and given to worry over small matters. Success is marked by artistic blunders. If you marry, you will probably be childless. Some money, after struggles.

"Sapphire"—You have some musical talent, and a taste for literature. You make a great show of money matters, but you are not foolish or wasteful in the spending of it. Your life will be spent in quiet, happy home life. You marry twice. You will make an ideal home-keeper, for you have a wealth of affection; can keep a home nice without wearing the soul out of the other members of the family, and you will combine daintiness and plenty in a most satisfactory manner. You will rule your own house, but I think it will be a very pleasant rule, after all.

"May Blossom"—Will you send me this little hand again? Even with the magnifying glass I cannot unravel this print, and yet I see wonderful lines in it. But it is blurred in places. Send it rolled or flat next time. I can see that her highest ambitions—and her ambitions are almost limitless—will be fully realized. She is also destined to fill a very high position. At middle life will come a serious illness. All the rest is confusion. Send two prints, if possible, of the left hand only. The third, clearly the padded portion at the base of the fingers, the other the lines as clear as possible at the base of the hand. I shall keep the print I have till I receive or give up the others.

"Babsie"—While you like order and neatness, you are not likely to ever detail work so long as the appearance is good. You will marry three times. Once you will be a widow; once you and your husband will have different tastes and opinions—the divorce will be in your favor. The third marriage will be opposed, but there is nothing to indicate that it will not be a happy one. You will find happiness, gratified ambitions, and some travels and journeys in your life. You are sometimes very cold and severe in your judgments; at others, you are sweetness itself. You stand no imposition; are affectionate; narrow-minded, but sincere and honest.

Patrons of this corner of Grandma's Room must not be impatient if readings do not appear as quick as they are seen in. At first this was possible; but now, though I crowd the other corners closely, I cannot possibly do as you all seem to desire. There lie on my table today sufficient prints to fill space for two weeks, and the first to come must be the first to appear.

A TORONTO MAN TRIES

SOMETHING NEW AND IS DELIGHTED—FEELS LIKE A BOY.

Mr. M. N. Dafeo, Manager the Dustless Brush Co., 29 Colborne street, Toronto, is telling his friends how he found health after years of illness and pain. He says:

"I have been a great sufferer from dyspepsia for many years. I have been treated by local doctors and have taken nearly all the advertised remedies with only temporary relief. If any at all, but since using Anti-Pill I can eat anything the same as when a boy. I have been taking one Anti-Pill at bedtime for the past three months and find they regulate both stomach and bowels. My old-time vigor has returned, so that my spirits are buoyant and temper normal. As a result of this unhelped for experience I am in duty bound to give all credit to this wonderful remedy, Anti-Pill."

Every druggist sells Dr. Leonard's Anti-Pill, or sample will be sent free by the Wilson-Fyle Co., Limited, Niagara Falls, Ont.

The remedy that cured Mr. Dafeo so completely is surely worth a trial. 502

SELF CURE NO FICTION! MARVEL UPON MARVEL! NO SUFFERER NEED NOW DESPAIR,

but without running a doctor's bill or falling into the deep pit of quackery, may safely, speedily and economically cure himself without the knowledge of a second party. By the introduction of THE NEW REMEDY THERAPION.

A complete revolution has been wrought in this department of medical science, whilst thousands have been restored to health and happiness who for years previously had been merely dragging out a miserable existence.

THERAPION No. 1—A Sovereign Remedy for diseases from the urinary organs, suppurating infections, the use of which does irreparable harm by laying the foundation of stricture and other serious diseases.

THERAPION No. 2—A Sovereign Remedy for primary and secondary skin eruptions, itching, and all those complaints which mercury and arsenic are popularly but erroneously supposed to cure. This preparation purifies the whole system through the blood and thoroughly eliminates all poisonous matter from the body.

THERAPION No. 3—A Sovereign Remedy for debility, nervousness, impaired vitality, sleeplessness, distaste and incapacity for business or pleasure, loss of appetite, blushing, indigestion, pains in the back and head, and those disorders resulting from early error and excess which the faculty so persistently ignores.

THERAPION is sold by principal Chemists throughout the world. Price in England 2/6 & 4/6. In entering, state which of the three numbers required, and observe that the word "Therapion" appears on British Government Stamp in letters on a red ground affixed to every package by order of His Majesty's Sanitary Commission, and without which it is a forgery.

WHOLESALE—Henderson Bros. Ltd., Vancouver and Victoria.

Broken Threads Mean Lost Time
A silk that has kinks, knots or rough places is bound to snap at these weak spots. Every time you have to stop and re-thread the needle, the silk maker is stealing your time.

Belding's Spool Silks
are evenly twisted and spooled—pure, tough silk. They sew smoothly in the highest speeded machines.

Get BELDING'S SPOOL SILKS if you want silks that won't waste your time by breaking. Every spool full length.

STOP! WOMEN,

AND CONSIDER THE ALL-IMPORTANT FACT

That in addressing Mrs. Pinkham you are confiding your private ills to a woman—a woman whose experience with woman's diseases covers a great many years. You can talk freely to a woman when it is revolting to relate your private troubles to a man—besides a man does not understand—simply because he is a man.

Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probably examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman whose knowledge from actual experience is great.

Mrs. Pinkham's Standing Invitation:

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private illness to a woman; thus has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken. Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.—Lydia E. Pinkham Medicine Co., Lynn, Mass.

Following we publish two letters from a woman who accepted this invitation. Note the result.

First letter.
"Dear Mrs. Pinkham:—
"For eight years I have suffered something terrible every month with my periods. The pains are excruciating and I can hardly stand them. My doctor says I have ovarian and womb trouble, and I must go through an operation if I want to get well. I do not want to submit to it if I can possibly help it. Please tell me what to do. I hope you can relieve me."—Mrs. Mary Dimmick, 59th and E. Capitol Sts., Benning P. O., Washington, D. C.

When a medicine has been successful in restoring to health so many women whose testimony is so unquestionable, you cannot well say, without trying it, "I do not believe it will help me." If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write Mrs. Pinkham, Lynn, Mass., for special advice—it is free and always helpful.

Second letter.
"Dear Mrs. Pinkham:—
"After following carefully your advice, and taking Lydia E. Pinkham's Vegetable Compound, I am very anxious to send you my testimonial, that others may know their value and what you have done for me."

THE WAY TO HEALTH

SEND THIS COUPON AND GET IT FREE

The little coupon which is appended to the bottom of this advertisement, mailed to me, will bring you a book which has opened the eyes of thousands of suffering men and women to the newest, easiest and cheapest way to health and vigor. It is yours, sent by mail, free, if you will send this coupon.

DR. McLAUGHLIN'S ELECTRIC BELT

WITH FREE ELECTRIC SUSPENSORY FOR WEAK MEN

Pours new life into weak, debilitated men, builds up nerve and vital force, cures Varicocele, Nervous Debility, Rheumatism, Back Pains, Weak Kidneys, Stomach, and revives the spark of youthful energy, giving back the old, vigorous animation. It makes strong, husky and vigorous specimens of manhood. (It is just as good for women as for men.)

NO MAN SHOULD BE WEAK.

No man should suffer the loss of that vital element which renders life worth living. No man should allow himself to become less a man than nature intended him; no man should suffer for the sins of his youth, when there is at hand a certain cure for his weakness, a check to his waste of power.

Most of the pains, most of the weakness of stomach, heart, brain and nerves, from which men suffer are due to an early loss of nature's reserve power through mistakes of youth. You need not suffer for this. You can be restored. The very element which you have lost you can get back, and you may be as happy as any man that lives.

My Electric Belt with Special Electric Suspensory (free), will restore your power, and will give back the old vigor of youth.

Use My Belt and Be Strong.

My Belt is easy to use; put it on when you go to bed; you feel the glowing heat from it (no stinging or burning, as in old style belts) and you feel the nerves tingle with the new life flowing into them. You get up in the morning feeling like a two-year-old.

Cured By My Belt, and Has Laid It Aside.

DR. McLAUGHLIN: Dear Sir,—I write you to let you know that your Belt helped me wonderfully. I am well satisfied. I feel well, and can work without being fatigued and dead on my feet. I used to be wearing the Belt in the early part of the summer, as I do not need it while I feel as I do now, nor have any desire to unless my trouble should come back on me, which I think it can possibly occur. Yours very truly, JOSEPH C. CARTER.

This drain upon your power causes all kinds of debility and Stomach Ailments. You know it's a loss of vital power and affects every organ of the body.

Every man who uses my Belt gets the advice and counsel of a physician free. I give you all that my medical men can give, and a lot that he can't. Try my Belt. If you can't call, write me to-day for my beautiful illustrated book with cuts showing how my Belt is applied and lots of good reading for men who want to be "The Noblest Work of God"—A MAN. Inclose this coupon and I will send this book, sealed, free.
